

The Electrical Association of Philadelphia

presents

The Basics of Solar PV Friday, September 27, 2019

About the Class: Learn the rules of the road on this exciting part of electrical work in Pennsylvania. This Solar class is an eight-hour course designed to get you started in this industry. This course includes system design, installation methods, over current protection, DC circuits, Sunshine meter, and electric meter installation (PECO is different than the other utilities, for example). It also outlines current rebates, tax incentives, and generation credits. Get the straight story from an expert Instructor and get educated at one of the leading facilities around, The Electrical Association of Philadelphia.

About the Instructor: Rich has been employed in the Electrical Industry for more than 40 years. He was the Senior Electrical Inspector with Middle Department Inspection Agency, and has taught electrical courses for Drexel University, US Steel, Penn State University, the IAEI, and his own Electric Education Center.

Rich Van Wert has served two terms as President of the Benjamin Franklin Chapter of the International Association of Electrical Inspectors (IAEI). He is a Commonwealth of Pennsylvania UCC Inspector, City of Philadelphia Electrical Inspector, and State of New Jersey Approved Instructor & Electrical Inspector.
