Emergency Generator Systems: Designing for Long-Term Reliability

This presentation will discuss emergency generator system design, installation and operational considerations that facilitate long-term reliability and ease of maintenance. It will address factors such as equipment location, enclosure styles, fuel choice, exhaust system design, operations and maintenance practices. With knowledge from this presentation, the electrical contractor will be able to recognize risks to long-term reliability and possibly offer design improvements to their client.

SPEAKER: Mike Hainzl,
Power Solutions Manager

Chad Moore, PE

PECO Rebates: Residential, Commercial and Industrial

Chad Moore, Principal of Square K Energy Solutions, an EAP Member Company, will provide attendees with a brief overview of rebates available from PECO in residential, commercial and industrial properties.

Two CEUs for PA Inspectors, Philadelphia Contractors and Two PDHs for PA PEs
